

## Big Valley Project Project Ranking Worksheet

Please rank the projects (1) - Most Important to (5) Least Important

Basin Recharge Projects		Ranking
	Agriculture Managed Aquifer Recharge	
	Drainage or Basin Recharge	
	Aquifer Storage and Recovery and Injection Wells	
Research and Data Development		Ranking
	Refined Water Budget and Domestic and Adin Community Supply Assessment • Agri-Climate Station • Voluntary Installation of Well Meters	
	Adaptive Management	
	Mapping and Land Use	
	Additional Stream Gages and Flow Measurement	
Increased Surface-water Storage Capacity		Ranking
	Expanding Existing Reservoirs	
	Allen Camp Dam	
Improved Hydrologic Function and Upland Recharge		Ranking
	Forest Health / Conifer and Juniper Thinning	
	Stream Channel Enhancement and	
	Meadow Restoration	
Water Conservation		Ranking
	Irrigation Efficiency	
	Landscaping and Domestic Water Conservation	
	Illegal Diversions and Groundwater Uses	
Public Education and Outreach		Ranking
	Public Communication	
	Information and Data Sharing	
	Fostering Relationships	
	Compiling Efforts	
	Educational Workshops	

Please provide any additional projects you would like to see included in the upcoming grant application for the Big Valley Groundwater Basin:
